

Not-for-profit seminar 2026

3 & 17 June 2026

Step into a practical, future-focused learning experience designed to support professionals working in or with the not-for-profit sector across Australia and New Zealand.

Built around the theme Future Ready: Strengthening NFPs for 2026 and Beyond, the programme focuses on real-world challenges and practical responses rather than theory alone. Sessions are designed to reflect the realities facing organisations operating in complex, resource-constrained environments.

Why attend?

Whether you are leading an NFP, advising organisations in the sector, or supporting governance and compliance, this seminar will provide practical guidance and sector insights to help you prepare for the year ahead.

You will gain:

- A clear understanding of the big issues shaping charities and NFPs in 2026, across both Australia and New Zealand
- Practical guidance on governance reviews and statutory obligations, including how to approach them proportionately
- Up-to-date insights on AU and NZ tax developments affecting the NFP sector
- Real-world examples of how NFPs are adopting AI responsibly and effectively
- Practical strategies to improve cyber health and organisational resilience, even with limited resources
- Insight into evolving philanthropy and funding trends, including donor behaviour and long-term sustainability
- Confidence to make informed decisions in a changing regulatory, technological, and funding environment

Boost your CPD by up to 7 hours
